Portfolio

Summary

B. Tech student specializing in **DevOps**, Cloud Computing, and Machine Learning, with hands-on experience from internships, hackathons, and projects. Skilled in building automation pipelines, scalable infrastructure, and AI-powered applications. Passionate about delivering impactful solutions and continuously learning emerging technologies.

Education

Swami Keshwanand Institute of Technology, Management & Gramothan – Jaipur, Rajasthan Bachelor of Technology in Computer Science & Engineering | 2023 – 2027 | CGPA: 9.3/10 Beetles International School – Jaipur, Rajasthan

Senior Secondary (XII) – CBSE Board | 2022 | 83.60%

Mount Carmel Convent School – Jaipur, Rajasthan

Secondary (X) – CBSE Board | 2020 | 87.60%

Technical Skills

- **Programming Languages / Frameworks:** Python, C, C++, Streamlit, Gradio
- Cloud: AWS (EC2, Lambda, API Gateway, S3, IAM, VPC), Apache Web Server, IaC(Terraform, Ansible)
- DevOps: Docker, Kubernetes, Jenkins, Prometheus, Git, GitHub, CI/CD Pipelines, Shell Scripting, Linux Administration, System Monitoring
- Machine Learning / AI: Deep Learning, CNN, NLP, GANs, Pandas, NumPy, TensorFlow, PyTorch, Keras
- Tools: Scikit-Learn, VS Code, Dev C++, GitHub CLI
- Courses: DBMS, OOPs, Operating System, Computer Network

Experience

DevOps, Cloud, MLOps & AI/ML Intern – Linux World Pvt. Ltd., Jaipur | Certificate June 2024 – August 2024

- Developed an MLOps Platform App with Python TUI.
- Worked with Docker, Jenkins, Kubernetes, AWS, Terraform, Ansible, Git, GitHub, Grafana, and Linux administration.
- Built automation pipelines, improving deployment efficiency.

Web Development Intern - SKIT, Jaipur | Certificate 2023

- Built and styled responsive web pages using HTML, CSS, and JavaScript.
- Improved UI/UX performance through optimized design and responsive elements.

Projects

Full CI/CD Pipeline – GitHub

- Built an automated build—test—deploy CI/CD pipeline.
- Tech Stack: Docker, Jenkins, Git, GitHub, Kubernetes

Microservices Scaling with Docker – GitHub

- Implemented microservices with Docker containerization, automated scaling, and load balancing.
- Tech Stack: Docker, Docker Compose, Microservices, Load Balancing

Multinode Kubernetes Cluster – GitHub

- Deployed and managed a multi-node Kubernetes cluster for scalable application orchestration.
- Tech Stack: Kubernetes, Docker, Cluster Management, Orchestration

Automated WordPress Deployment on AWS with Terraform - GitHub

- Built a fully automated infrastructure to deploy WordPress with secure VPC, subnets, EC2, and RDS, provisioned via Terraform in a single command.
 - Tech Stack: AWS, Terraform, EC2, RDS (MySQL), VPC, Infrastructure as Code (IaC)

Certifications

- OCI 2025 DevOps Professional Oracle University (Aug 2025) | CI/CD, microservices, containerization (OKE, OCIR), DevSecOps, IaC, observability.
- OCI 2025 Generative AI Professional Oracle University (Aug 2025) | LLMs, prompt engineering, fine-tuning (T-Few), RAG chatbot, LangChain, vector DB, AI deployment on OCI.
- AWS Cloud with Artificial Intelligence Workshop (AWS, Computer Vision, Python, AI)
- NPTEL Certifications Data Structures & Algorithms (C++), Database Management Systems (DBMS)

Achievements / Extracurricular

- Founder & CEO Neuroaura(Start-up) Emotional Fingerprint Generator
- Published research paper on AI emotion detection risks in the International Journal of Recent Research and Review(IJRRR)
- Winner Hackverse Hackathon (Gurugram)
- Participant Hackcrux (LNMIIT Jaipur)

Positions of Responsibility

- Coordinator BGMI Event, Annual Fest Pravah, SKIT Jaipur
- Volunteer ICI Fest, SKIT Jaipur
